Misogeny in the 8M

1. Context, motivation

Barcelona Feminist Strike, 8M2020

Although feminism should be an standard thought in our society, still, there are some who are against it.

Although feminism should be an standard thought in our society, still, there are some who are against it.

Francisco Serrano
@FSerranoCastro

Me pregunto : por qué las vividoras feministas radicales transgénicas no se van a países musulmanes a defender los derechos de las mujeres?

Contra la violencia tolerancia cero. Siempre?

No hombre,no,depende de quien sea el violento

Las feminazis psicópatas de género no cuentan

CINE

Carlos Saura: "Del feminismo está naciendo un odio al hombre, hay cada vez más chicas lésbicas"

- En una entrevista concedida a El Mundo, el célebre cineasta y escritor español ha afirmado que el feminismo le parece preocupante
- También sostiene que "aparecen cada vez más chicas lésbicas porque entienden que es mucho más fácil tener placer sexual con mujeres que no con hombres que van a ser un problema"

For this, the following questions are awaken:
Which is the twitter misogynistic response during the 8M?

Goal of the project:

Analyze the global connection between users,
and how all of the misogynistic response
belongs to the extreme right-wing parties.

5. Discussions, Limitation and Biases

The hashtags that appear the most are the ones that we've searched for. Also, users that appear the most are public representatives of the parties that promote that hashtag.

Some people used the #8Myonovoy hashtag for coronavirus reasons and not for antifeminism. Although the visualization considered communities who used misogynist hashtags to go against them, there will always be some tweets that we won't be able to know its content precisely.

Another bias of the visualization is that many communities are too small and didn't even appear.

Finally, a better Data cleaning could also have been done.

6. Proposal for future work

We could visualize the data of other days such as Hispanity or LGTBI Pride day, to check if the agents that go against the gender and sexual equality are the same ones.
